## PREFACE.

---

THE favour with which the first volume of the Reference Book for the British Provinces was received, induces the belief that the work now presented will meet with general approval. It could not otherwise happen, than that in the first publication of a work of this character and magnitude, inaccuracies and omissions should occur. The present volume however, it is hoped, will be found more correct and complete. The estimates of capital and ratings of credit herein contained have all been carefully made, without reference to the previous book, from new reports, closely revised by our own Travelling Agents, who have visited every locality of the country, and consulted the best sources of information. We do not pretend to have reached entire accuracy, but we do claim general reliability, inasmuch as the book contains a condensation of the local knowledge possessed by over a thousand intelligent correspondents, elicited by an efficient staff of reporters, and confirmed by the daily experience of the Wholesale Merchants, Bankers, &c., of the country for the last ten years. We have to repeat the request that Subscribers will not depend solely upon this work as a guide in granting credits. It is not intended to be substituted for the detailed reports on record in our offices. Our information is now more than usually complete, and it is entirely at the service of subscribers.

DUN, WIMAN & CO.

MONTREAL AND TORONTO,

*August 25th, 1865.*

## TERMS OF SUBSCRIPTION.

---

**D**UN, WIMAN & CO. having prepared a Reference Book of names of business men in the British Provinces, with ratings for the service of their subscribers, and the use of the same being needed by us as an aid in determining the safety of our credit business, we, the undersigned, do hereby employ the said DUN, WIMAN & Co. to place in our keeping, for the term of one year, a printed copy of said Reference Book, above referred to, for our confidential use, and for which we will pay in advance \_\_\_\_\_ dollars, and at the expiration of one year from date, return the said book to said DUN, WIMAN & Co.

<b>? Inquire at our Office.*</b>		

\* This embraces not only those of questionable credit, but also those whose business and investments render it difficult to rate them satisfactorily to ourselves. We therefore prefer, in justice to these, to give our detailed report.

The first column is intended to represent, as nearly as the scale will admit, the worth of a person,—not only capital in business, but all property in possession above indebtedness. It has no relation to the second column, except so far as capital or property is a qualification for credit. All who are worth less than \$2000 are left blank in this column.

The markings in the second column are higher or lower, (as compared with pecuniary resources,) according to personal or business qualifications, the nature, hazard and extent of business, &c.

1. The first part of the paper is devoted to a general  
 introduction of the subject, and to a statement of the  
 objects and scope of the investigation.

## THE THEORY OF THE EARTH

The second part of the paper is devoted to a detailed  
 examination of the various theories which have been  
 advanced to explain the origin of the earth, and to a  
 comparison of the results of these theories with the  
 facts of geology and geography.

The third part of the paper is devoted to a  
 discussion of the various theories which have been  
 advanced to explain the origin of life, and to a  
 comparison of the results of these theories with the  
 facts of geology and geography.

The fourth part of the paper is devoted to a  
 discussion of the various theories which have been  
 advanced to explain the origin of the human race, and to a  
 comparison of the results of these theories with the  
 facts of geology and geography.

The fifth part of the paper is devoted to a  
 discussion of the various theories which have been  
 advanced to explain the origin of the human mind, and to a  
 comparison of the results of these theories with the  
 facts of geology and geography.
